

NWT Mining Incentive Program

The new Mining Incentive Program provides funding to both prospectors and mineral exploration companies that are licensed to operate in the Northwest Territories.

In 2014-15, total funding available under this program is \$400,000. The application deadline for 2014-15 is July 14, 2014.

Applications are being accepted for funding in the following areas:

Prospector Mining Incentive Program: Prospectors licensed to operate in the NWT can apply for up to \$15,000 in funding.

Corporate Mining Incentive Program: Mineral exploration companies licensed to operate in the NWT can apply for up to \$100,000 in funding (up to 50% of eligible expenses).

Proposed projects are evaluated and selected with the following considerations:

- Projects will stimulate mineral exploration and innovation, and those most likely to produce results that directly enhance the value of the property or area.
- NWT goods and services are purchased to maximize benefits to territorial businesses and residents.
- Projects displaying relevant knowledge of geology, and past exploration if available, along with supporting information and documentation.

Media requests for interviews with Members of the Executive Council may be directed to:
